British Unious Refuse to Accept Commission's Report.

London. October 50.—There is grave danger of a renewal of the railway strike. Men in the chief centres at meetings have refused to accept the report of the Railway Commission and have expressed themselves as ready to renew the struggle if called upon by the executives of the unions.

The Railway Commission, which was appointed last August to endeavor to effect a settlement between the railway companies and their employes, who were then on strike, opposed recognition of the unions by the companies. "The commissioners think," their report said, "that with their great re-

"MURDERERS' ROW"

Society Woman Charged With Killing Husband Couldn't Associate With Other Prisoners.

With Other Prisoners.

Denver, Col., October 80.—Mrs. Gertrude Patterson, charged with the murder of her husband, now occupies a cell for the condemned in the county jail. She was moved there upon her own request. The cell is separated from the other quarters in the west upper tier and allows Mrs. Patterson to be entirely alone, away from the other women prisoners.

Association with other prisoners in the matron's quarters has been objectionable to Mrs. Patterson. No way is provided to segregate negroes from white nor to give quiettude to those who profer to be alone.

Mrs. Patterson is cultured, refined, delicate, dainty from her finely polished flipser nails to the tips of her French boots, a woman of fashion. She is in jail what she would be in her bouloir—a calm, self-possessed woman of the world.

Car for Pathfinding Party Fails to Reach At-

lanta.

(Special to The Times-Dispatch.)

Atlanta, Ga., October 30.—Although
Freeman Monroe, who drove the Chalmers Six throughout the Glidden tour,
personally supervised the loading of
the big auto upon a car of the Atlantic
Coast Line at Jacksonville, Fia., on
Fricay, the 27th, and received the assurance of the company that it would
arrive in Atlanta in time to start early
this morning on the pathfinding tripfrom Atlanta to Hichmond, it was after
a clock this afternoon that notice
was received from the Atlantic Coast
Line that the Central of Georgia Railty had the car upon its tracks and
aat it would arrive at \$:45 to-night.

If this statement proves correct, the
party will start early to-morrow morning and follow the route heretofore
printed in The Times-Dispatch, with a
difference of one day in its schedule.

In a letter to F. H. Eillott, secretary
of the Touring Club of America, received this morning from Vice-President Sherman, the organizations under
the auspices of which the tour will take
place are congratulated by the VicePresident on the work undertaken,
which he states must mean an improvement of the highways of the South.

The Michell-Lewis Motor Company
ins a car for the trip, which will be
occupied by F. H. Eillott and D. D.
Armstrong, of the Touring Club of
America, and the official photographer
of the party. Through the courtesy of
Clindsey Hopkins, of the OverlandSouthern Motor Company, the touriste
had automobiles at their disposal
throughout the day. Colonel McNair,
the editor of the Automobile Blue
Book, will ride with the driver of the
Chalmers pilot car and will make a
complete reading of the route to Richmond, so that tourists in the Nature
may make the trip without difficuity.

The Augusta Chamber of Commerce
wired to-day to the party asking for
the time of arrival and road by which
entrance would be made, and an escorting party is expected.

TAFT CAN'T WIN, SAYS WILLIAM ALLEN WHITE

on Politics Declares La Follette Will Carry the West.

Chicago, October 56.—William Allen White, editor and faunous writer on nolities affecting the hailon, who has been attending the National Civic Conference at Madison, Wis., gave this analysis of the national political situation as it appears to him:

"Wall Street sees Taft cannot win. Big business will dump him merciessity. It seems to fear that Taft's weakness means the success of La Follette, valuess conething is done to outplay the La Follette sentiment.

"Perhaps a new candidate will appear, some fine, unimpeachable, dignimed candidate like Seth Low, President Butlor, of Columbia; Senstor Lodge or Senator Burton, of Ohio.

"Big business could steal the Southfrom Taft and Hitchcock, Getting delegates through the Southern railroads, owned by the men who are hitting the Fresident in their newspapers, will be like taking candy from a blind child.

"With the South gone, Taft's renomination will be impossible. La Follette will carry the West, Nothing can stop that. Wall Street knows it. Wall Sirect's feet are so cold that its toos clink.

To Get Rid of Frown and Squint Wrinkles

(From Household Friend.)

Although the young men are very indignant, their anger is not nearly so great as that of the girls, who feel that should love-making on the bridge cease prospects would become very slim for marriages in Milton.

The young people declare they will continue to linger on the bridge, and will dare the Mayor or any other official to put them off. Do you know what your frowning habit makes you look like? Observe the different expressions due to frowns in the faces of other people. The scowl, given by two deep lines between the eyes; the worried look, resulting from a furrowed forehead; the sly expression, induced by squinting and causing tiny lines to radiate from the corner of the eye—all these, and more, are the result of frowns. To obliterate frowning wrinkles—and all others—use a wash lotion made by dissolving an ounce of powdered saxolite in a half pint of witch hazel. The Salem, Fast Scout Cruiser, and the Roe, Destroyer, Assigned to Task.

New York, October 36.—That the United States government is giving official recognition to the proposed fight of Melvin Vaniman from Atlantic City in his dirigible balloon was made known yesterday, when Rear-Admiral Hugo Osterhaus, commander in-chief of the Atlantic ficet, issued an order for the Salem and the Roe to be ready to follow the Vaniman balloon.

be ready to follow the Vaniman balloon.

The Salem, one of the fastest of the scout cruisers of the American Navy, and capable of following the dirigible balloon across the Atlantic if necessary, will be ready to steam along the route when the start is made.

The Roe, faster than the Salem, a destroyer with a speed of more than thirty knots, will do the near shore work, and if the balloon should be driven to the southward would prove an admirable vessel to follow the great cigar-shaped gas bag. Mr. Vaniman will start out well protected from immediate danger by the courtesy of the Navy Department, and will not have the handicap of uncertainty that prevailed when Walter Weilman made a similar venture, to be rescued later by the Trent, of the Royal Mail Steam Packet Company.

Chicago, Ill., October 30.—Two hundred women delegates for 16,000 others scattered through Cook county heard the call to arms of the war against the high cost of living. A campaign committee was named to confer on plans and report as to whether they should enlist in an army to carry on the campaign here.

The agitator was Francis B. Atkinson, associate editor of the Technical World Magazine. Atkinson's plan calls for the formation of marketing clubs all over the city, one club to 100 families. These clubs, he said, are to be federated so they can form a marketing company, and the company will purchase goods by wholesale and distribute them to different district agencies for retail distribution to members of the clubs.

"A big problem in getting good cold storage foods at reasonable prices is in the management of the cold storage plant. It is not the storage system that results in bad foods to the consumer, but the fact that bad food goes into the plant, because the poor, miserable consumer has no system for insuring a better market for good food than for bad."

A prime feature is to be the employment of an inspector for each district, who will examine all food before it is accepted. There will be tables of "pure foods and poor foods" and brochures. The committee which will confer with Atkinson is made up of Mrs. Freeman E. Brown, Mrs. Andrew P. Coon, Mrs. Henry Jaffray, Mrs. John E. Thompson, Mrs. Frank L. Bellows and Mrs. Frederick A. Dow.

BLOTTING-PAPER GAME **NETS SWINDLER \$150**

Everett, where both drew money from the bank. The man, up in years, who later made Martin a victim was registered at the United States Hotel as Robert Johnson. At the stable, where the men went to look after their horses, Johnson called Martin aside and suggested counting the money to see whether it was all right. Martin drew out the envelope that contained the banknotes, and they were counted and put back. Johnson then proceeded to write Martin's name on the envelope with a fountain pen. He drew a biotting pad from his inside pocket, laid it on the envelope, and then handed the envelope to Martin. All started back to the hotel, but

to Martin.

All started back to the hotel, but Johnson did not go in, and after walting for him for a time Martin became suspicious, and found that the envelope in his pecket contained nothing but pieces of blank paper. In blotting the envelope Johnson had deftly substituted the one containing the paper. The police have been unable to find the swindler.

Milwaukee, October 30.—The story Edward Hines, the lumberman, and Robert J. Shields assisted in the election of Senator Isaac Stephenson, as given in the testimony of Lieutenant-Governor Thomas Morris, was retold before the senatorial investigating committee to-day, with added details. State Senator Paul O. Husting, who was with Morris in an attorney's office in Chicago, testified that at that time he overheard Wirt H. Cook, of Vuluth, giving details about alleged relations between Hines and Shælds.

"Cook said he obtained information about a dispute which Shields had with Hines over the amount of money that ought o be paid for Shields's work in buying the Legislature," testified Husting. "The understanding. Cook said, was that Hines had gone to Washington and told Stephenson that money would be needed to put over the election. Shields was employed to do the 'putting over.'"

Then, when the work was done. Shields demanded his pay for it. Hines said he'd send Shields to the peniteritary If, 100.

"Shields then repNed to Hines, Tve burned your buildiners for you, bribed your assessors and committed every crime in the calendar for you, and you bet if I go to the penitentiary you will so, too."
